Square Dancing: An American Tradition

Square dancing has been a part of the United States culture for over 200 years. It is recognized as a true representation of the country's old traditions and remains a popular pastime today due to its health and social benefits.

Modern Western Square Dancing is not the traditional hoe-down or cowboy type of dancing that was popular in the American West. It has evolved to welcome a new generation of dancers, as well as dancers from around the world.

Modern Western Square Dancing is danced to a wide variety of music styles, including rock, country/western, jazz, gospel, pop, hip-hop and even more.

Clothing styles have changed so that dancers will be comfortable in the traditional square dance clothes with petticoats and western shirts; long prairie length skirts; or casual jeans and t-shirts.

Modern Western Square Dancing is a non-competitive activity. There are no dance competitions and there are no prizes for the "best dancer" or "best square." At all levels of dance, the main objective is to enjoy the dance and to enjoy the fellowship.
